PROBABLE CAUSE:

On 03-10-15 at approx. 1020 hrs Officer was detailed to Time Warner Cable located at 5400 S 16th regarding a phone call they received from a customer threatening to blow up the building. All the Time Warner personnel were evacuated from all their buildings as there had been no specification as to the location of the possible bomb. LFR and Fire Inspector Hilger checked all the buildings for a bomb which was not located but the Time Warner Cable business was disrupted for approx. 20 minutes.

Carie, a call taker for Time Warner Cable, states at 0916 hrs she received a phone call from phone number XXX-XXX-XXXX. The caller identified herself as Mikka Phillips (DEF), and stated she had recently moved to XXXX S XXth #XXX and was upset because she had attempted several times to have cable service installed but no one would show up. DEF said she was scheduled to have the installation done on 03-10-15 between 0800-0900 hrs but no one had arrived at the time of her call. Carie said she told DEF that TWC had had to reschedule the installation from that time to a different time and had attempted to contact DEF with this information at the last phone number they had for DEF but it was no longer in service. DEF became very angry and started cursing at Carie about all time she has missed at work due to the missed/rescheduled appointments. The phone call was recorded and DEF is heard to say, 'What the fuck?? I swear to God I'm blowing up that building, I swear to God!!' DEF is heard to get more and more angry, using extensive profanity until she disconnects the call.

DEF was contacted at College of Hair Design located at 304 S 11th where she is a student. DEF admitted that she had made the phone call but stated she never meant that she was actually going to blow up the building. DEF said she made the statement out of anger and frustration because she is trying to get her life back on track but feels like for every step forward she takes another step back.

DEF was cited/lodged for Threatening the Use of Explosives (28-1221) under citation LB458768 and turned over to CO Larsen.
